RATE SCHEDULE NUMBER WCIAC-1
COMBINED
CONTRIBUTION IN AID OF CONSTRUCTION (CIAC)
SERVICE AVAILABLE AS OF JANUARY 1, 1981

APPLICABLE TO:

Customers with lots which have service available directly from existing mains as of January 1, 1981 and are not paid or under contract as of that date.

NOTE: Minor main extensions may be made by the Utility under this CIAC rate.

Owners of residential properties containing a single one family residence may elect to limit their combined CIAC to a designated one-half acre area. The CIAC on the remaining property may thus be postponed until the remainder is developed.

RATES:

CIAC charge will be computed upon the square footage of the entire area being served, generally the smallest legally subdivided lot or lots on which all benefited improvements are located, said amount to be computed to the nearest cent. Hookup saddles will be included in CIAC.

ONSITE

CONTRIBUTION IN AID OF CONSTRUCTION (CIAC)

SERVICE NOT AVAILABLE AS OF JANUARY 1, 1981

APPLICABLE TO:

Customers in the service area with lots, which do not have service available as of January 1, 1981, and are not paid or under contract as of that date. In order to serve the customer, the Utility will need to perform major expansion of its main lines.

Onsite CIAC portion limited to cost to construct an equivalent 8" diameter main, except at Fairbanks International Airport, where onsite will be the full cost of main of required diameter.

The oversizing cost shall be computed on the differential purchase price on pipe, tee's, ell's, fittings, valves, and insulation.

RATE:

Systems constructed subsequent to January 1, 1981, shall be charged for the onsite portion, if applicable, on the basis of prorating to the benefited property 100% of the actual cost incurred by the Utility, including overhead and interest during construction.

Additionally, a charge for offsite CIAC at a rate of three cents (\$.03) per square foot of assessable area shall be charged prior to connection to the Utility main. (For circulation pump stations, reservoirs and transmission main components). See Rate Schedule WCIAC-3.

The cost of connection saddles shall be included in the Offsite CIAC fee.

COST OF ENERGY ADJUSTMENT

COST OF ENERGY ADJUSTMENT CLAUSE

N

a. Applicability:

The categories of purchased power, purchased heat, purchased natural gas and transportation expense (limited to fuel used in utility-owned vehicles) are volatile and largely beyond the control of the utility. The cost of energy adjustment provides a mechanism to adjust rates for the changes in the cost of energy.

b. Cost of Energy Adjustment:

The Cost of Energy base rate per 1000 gallons sold is \$1.51272.

Invoices to customers will be increased to reflect the amounts by which the cost of energy per 1000 gallons sold exceeds the base rate and decreased to reflect the amount by which the cost of energy per 1000 gallons sold is less than the base rate in accordance with the procedure set forth in (d) from Sheet 26.

c. Cost of Energy Balance Account:

The utility shall maintain a Cost of Energy Balance Account commencing February, 2010. The Cost of Energy Balance Account will commence with a zero balance on February 1, 2009 with balances thereafter reflecting the sum of the debit and credit entries prescribed below:

1. A debit entry equal to the actual purchased power, purchased heat, purchased natural gas and transportation expense (limited to fuel used in utility-owned vehicles) during each month.
2. A credit entry equal to the number of gallons sold during the month multiplied by the cost of energy included in the base rate.
3. A credit entry equal to the number of gallons sold during the month multiplied by the cost of energy adjustment per 1000 gallons sold as computed in (d) from Sheet 26.
4. Any necessary correcting entries to adjust the cost of energy or the cost and volume of energy in (1) above, subject to subsequent review and approval by the Commission.

COLLEGE UTILITIES CORPORATION

COST OF ENERGY ADJUSTMENT

e. Cost of Energy Filing Requirements and Supporting Documents:

N

The utility shall submit each cost of energy adjustment request as a tariff filing within 45 days after the end of each quarter year. The filing shall include:

1. Copy of invoices supporting the purchased power, purchased heat, purchased natural gas and transportation expense (limited to fuel used in utility-owned vehicles);
2. Gallons sold by utility, by customer class, by month;
3. Fluctuation analysis and explanation for changing month-to-month costs by category;
4. The Cost of Energy calculation;
5. Documentation in support of projected costs and sales for the future period;
6. Calculation of monthly balances in the cost-of-energy balancing account; and
7. Revised tariff sheets.

Within 45 days after the last day of any month in which the absolute value of the cost-of-energy balancing account balance exceeds 10 percent of the utility's annual allowed energy adjustment costs, the utility shall submit a Cost of Energy tariff filing.
