RATE SCHEDULE

RATE SCHEDULE NUMBER 471
MISCELLANEOUS SERVICE REVENUE - APPLIANCE INSPECTION

APPLICABLE TO:
All buildings receiving water cooler chiller services.

RATES:
$35.00 per month for inspection of each cooling chiller device.

PURSUANT TO:
TARIFF ADVICE NO: 83-97 EFFECTIVE: January 19, 2006

 ISSUED BY: COLLEGE UTILITIES CORPORATION

BY : Dan Gavora TITLE: President/CEO
RATE SCHEDULE NUMBER WCIAC-1
COMBINED
CONTRIBUTION IN AID OF CONSTRUCTION (CIAC)
SERVICE AVAILABLE AS OF JANUARY 1, 1981

APPLICABLE TO:

Customers with lots which have service available directly from existing mains as of January 1, 1981 and are not paid or under contract as of that date.

NOTE: Minor main extensions may be made by the Utility under this CIAC rate.

Owners of residential properties containing a single one family residence may elect to limit their combined CIAC to a designated one-half acre area. The CIAC on the remaining property may thus be postponed until the remainder is developed.

RATES:

CIAC charge will be computed upon the square footage of the entire area being served, generally the smallest legally subdivided lot or lots on which all benefited improvements are located, said amount to be computed to the nearest cent. Hookup saddles will be included in CIAC.

Rate Per Square Foot

$.215

RATE SCHEDULE NUMBER WCIAC-1.1
ONSITE
CONTRIBUTION IN AID OF CONSTRUCTION (CIAC)
SERVICE NOT AVAILABLE AS OF JANUARY 1, 1981

APPLICABLE TO:

Customers in the service area with lots, which do not have service available as of January 1, 1981, and are not paid or under contract as of that date. In order to serve the customer, the Utility will need to perform major expansion of its main lines.

Onsite CIAC portion limited to cost to construct an equivalent 8" diameter main, except at Fairbanks International Airport, where onsite will be the full cost of main of required diameter.

The oversizing cost shall be computed on the differential purchase price on pipe, tee's, ell's, fittings, valves, and insulation.

RATE:

Systems constructed subsequent to January 1, 1981, shall be charged for the onsite portion, if applicable, on the basis of prorating to the benefited property 100% of the actual cost incurred by the Utility, including overhead and interest during construction.

Additionally, a charge for offsite CIAC at a rate of three cents ($.03) per square foot of assessable area shall be charged prior to connection to the Utility main. (For circulation pump stations, reservoirs and transmission main components). See Rate Schedule WCIAC-3.

The cost of connection saddles shall be included in the Offsite CIAC fee.

RATE SCHEDULE NUMBER WCIAC-2
COMBINED
CONTRIBUTION IN AID OF CONSTRUCTION (CIAC)
FAIRBANKS INTERNATIONAL AIRPORT AREA
SERVICE AVAILABLE AS OF JANUARY 1, 1981

APPLICABLE TO:

Customers with lots which have service available directly from existing mains as of
January 1, 1981, and are not paid or under contract as of that date. See following
sheet with legal description of effected area.

NOTE: Minor main extensions may be made by the Utility under this CIAC rate.

RATE:

CIAC charge will be computed upon the square footage of the entire area being
served, said amount to be computed to the nearest cent. Hookup saddles will be
included in CIAC.

Rate Per Square Foot

RATE SCHEDULE

RATE SCHEDULE NUMBER WCIAC-3
OFFSITE
CONTRIBUTION IN AID OF CONSTRUCTION (CIAC)

APPLICABLE TO:

All customers requesting a new service connection except those which qualify under Rate Schedule WCIAC1 and WCIAC-2 (combined CIAC).

RATES:

Three cents ($0.03) per square foot of tract being served.

SPECIAL CONDITIONS:

Owners of residential properties containing a single one family residence may elect to limit their offsite CIAC to a designated one-half acre. The Offsite CIAC on the remaining property may thus be postponed until the remainder is developed.

See Section 1.2 for definitions of Offsite, Onsite, and Contributions in Aid of Construction.

COST OF ENERGY ADJUSTMENT CLAUSE

a. Applicability:
The categories of purchased power, purchased heat, purchased natural gas and transportation expense (limited to fuel used in utility-owned vehicles) are volatile and largely beyond the control of the utility. The cost of energy adjustment provides a mechanism to adjust rates for the changes in the cost of energy.

b. Cost of Energy Adjustment:
The Cost of Energy base rate per 1000 gallons sold is $2.11091.

Invoices to customers will be increased to reflect the amounts by which the cost of energy per 1000 gallons sold exceeds the base rate and decreased to reflect the amount by which the cost of energy per 1000 gallons sold is less than the base rate in accordance with the procedure set forth in (d) from Sheet 26.

c. Cost of Energy Balance Account:
The utility shall maintain a Cost of Energy Balance Account commencing February, 2010. The Cost of Energy Balance Account will commence with a zero balance on February 1, 2009 with balances thereafter reflecting the sum of the debit and credit entries prescribed below:

1. A debit entry equal to the actual purchased power, purchased heat, purchased natural gas and transportation expense (limited to fuel used in utility-owned vehicles) during each month.

2. A credit entry equal to the number of gallons sold during the month multiplied by the cost of energy included in the base rate.

3. A credit entry equal to the number of gallons sold during the month multiplied by the cost of energy adjustment per 1000 gallons sold as computed in (d) from Sheet 26.

4. Any necessary correcting entries to adjust the cost of energy or the cost and volume of energy in (1) above, subject to subsequent review and approval by the Commission.

**TARIFF ADVICE NO:** 141-97  **EFFECTIVE:** August 1, 2019

**ISSUED BY:** COLLEGE UTILITIES CORPORATION

**BY:** Oran Paul  **Title:** President
The utility shall submit each cost of energy adjustment request as a tariff filing within 45 days after the end of each quarter year. The filing shall include:

1. Copy of invoices supporting the purchased power, purchased heat, purchased natural gas and transportation expense (limited to fuel used in utility-owned vehicles);

2. Gallons sold by utility, by customer class, by month;

3. Fluctuation analysis and explanation for changing month-to-month costs by category;

4. The Cost of Energy calculation;

5. Documentation in support of projected costs and sales for the future period;

6. Calculation of monthly balances in the cost-of-energy balancing account; and

7. Revised tariff sheets.

Within 45 days after the last day of any month in which the absolute value of the cost-of-energy balancing account balance exceeds 10 percent of the utility’s annual allowed energy adjustment costs, the utility shall submit a Cost of Energy tariff filing.

BY: Oran Paul  Title: C.O.O.
PLANT REPLACEMENT AND IMPROVEMENT SURCHARGE MECHANISM (PRISM)

a. Applicability:
To recover the reasonable and prudent fixed costs incurred to repair, improve, or replace certain non-revenue producing plant placed in service between general rate cases. The costs of extending facilities to serve new customers are not recoverable through the PRISM.

b. Eligible Property:
The PRISM-eligible property will consist of the following:

- Service saddles, valves and other appurtenances required for customer connection to Utility mains, meters, and hydrants installed as in-kind replacements.
- Mains and valves installed as replacements for existing facilities that remain in service beyond reasonable service life, are in prematurely deteriorated condition, or are required to be upgraded to meet quality of service standards and applicable law.
- Main extensions installed to eliminate dead ends and to implement solutions to water supply problems that present a significant health or safety concern for customers currently receiving service from the utility.
- Main replacement, cleaning and relining projects.
- Unreimbursed costs related to highway relocation projects where the utility must involuntarily relocate facilities.
- Other capitalized costs related to plant described above.

c. Effective Date:
The PRISM rate will become effective for bills rendered on or after October 1, 2016.

EFFECTIVE: June 16, 2016

ISSUED BY: COLLEGE UTILITIES CORPORATION

BY: Oran Paul
Title: President
d. Computation:
The initial charge in this tariff is 0.00%. The PRISM rate to become effective October 1, 2016, shall be calculated to recover the fixed costs of eligible plant additions that have not previously been reflected in the rate base calculation and will have been placed in service between January 1, 2015, and July 31, 2016. Thereafter, the PRISM will be updated semi-annually by tariff advice filing to reflect eligible plant placed in service during the six-month periods ending two months prior to the effective date of each PRISM update.

<table>
<thead>
<tr>
<th>Effective Date of Change</th>
<th>Date to which PRISM-eligible Plant Additions reflected</th>
</tr>
</thead>
<tbody>
<tr>
<td>April 1</td>
<td>January 31</td>
</tr>
<tr>
<td>October 1</td>
<td>July 31</td>
</tr>
</tbody>
</table>

The fixed costs of eligible PRISM projects will consist of depreciation, return, and taxes (State, Federal and local) plus any correction or adjustment requested and approved by the commission.

**Depreciation:** The depreciation expense shall be calculated by applying the annual accrual rates determined by the most recently approved or accepted depreciation study to the original cost of PRISM-eligible plant.

**Return:** The after tax return shall be calculated using the approved capital structure and weighted average cost of capital in the utility's most recent general rate case.

**Taxes:** The income taxes shall be calculated using the statutory State and Federal income tax rates. Property taxes shall be calculated using the local tax rates currently in effect.

The plant improvement surcharge rate will be expressed as a percentage, carried to two decimal places, that is applied to all classes of service as a percentage of each customer's billed revenue.

The percentage is calculated by dividing the total annual eligible fixed costs (divided by two) by the projected semi-annual revenue.

ISSUED BY: COLLEGE UTILITIES CORPORATION

BY: Oran Paul

Title: President
d. Computation: (continued)

Formula: The formula for calculating the plant replacement surcharge percentage is as follows:

\[
PRISM = \frac{(EP \times WACC) + Dep + Taxes + e}{PSAR}/2
\]

Where:

\( EP \) = the original cost of PRISM eligible plant net of accumulated depreciation.

To the extent bonus depreciation is applicable to eligible plant, the Utility will make an adjustment to subtract related ADIT.

\( WACC \) = the weighted average cost of capital approved in the utility’s most recent general rate case.

\( Dep \) = the depreciation expense related to PRISM eligible plant.

\( Taxes \) = the state and federal statutory tax rates applied to the equity return, and local property taxes applicable to the PRISM eligible plant.

\( e \) = the amount calculated under the annual reconciliation or any correction or adjustment of actual entries used in the calculation of the surcharge rate.

\( PSAR \) = the projected semi-annual revenues to be collected from customers.

**PRISM WATER SURCHARGE RATE:** The PRISM percentage is 0.12%
e. Consumer Protections:

Surcharge Cap: The PRISM rate may not exceed 7.5 percent of the amount billed to customers under the otherwise applicable tariff rates.

Semiannual Reconciliation: The utility will reconcile all plant improvement surcharge revenue to eligible fixed costs on a semiannual basis. Any over or under collection will be included as an eligible fixed cost reduction or increase in the next PRISM rate update following the reconciliation.

Cap reset: The PRISM rate must be reset to zero at the effective date of revised base rates set in a general rate case that incorporates the capital costs previously recovered through the plant improvement surcharge. The surcharge rate may also be reset to zero or another reduced rate that the commission establishes by order, if the commission, based on annual report data or otherwise, finds that the utility's earned rate of return, including surcharge revenues, exceeds the rate of return used to calculate the surcharge rate.

Customer Notice: The utility will notify customers by bill insert before filing periodic revisions of a surcharge rate.

Long-term Infrastructure Improvement Plan: The utility will file a long-term infrastructure improvement plan no less often than every five years. The original plan is included with the initial tariff filing. The updated plan requirements, as described in 3 AAC 52.815(c), will be filed no later than March 31.

Asset Optimization Plan: Within one year after filing the initial long-term infrastructure improvement plan, and annually thereafter by March 31, the utility shall file an asset optimization plan as described in 3 AAC 52.815(d).
